

# Standard Cable Plough

We operate an extensive fleet of cable ploughs, used for projects around the world. The vehicles have been designed to operate to depths of 1,500m, and are capable of installing cable, repeaters, and cable splice boxes. All ploughs are equipped with a cable tracking system, and forward obstacle avoidance sonar.

## Key Features

- Full surveillance suite
- Obstacle avoidance sonar
- Repeater burial share

<b>Depth Rating:</b>	To 1,500m seawater, depending on specification
<b>Weight:</b>	19 tonnes (in air)
<b>Length:</b>	9.0m
<b>Width:</b>	4.6m
<b>Height:</b>	3.7m
<b>Burial depth:</b>	Up to 1.5m, depending on share
<b>Burial Speed:</b>	Typically 0.6 - 1km/hr, depending on seabed
<b>Seabed type:</b>	From very soft mud; through to soft clays and stiff sands
